

# Custom Programming Request Form

The minimum charge for custom programming is \$500.00. There will be a \$150.00 deposit required to begin the project which will be applied towards the final cost at the completion of the project.

By submitting this request does not guarantee any work will be done. Each request received will be evaluated by the following terms:

- How it affects other parts of the system.
- Does it make sense?
- How long it takes to program.
- Could it be something other customers have asked us for?

It is understood that most custom requests are for reports and the above terms may not apply.

For custom reports please fax/mail a drawn out version of what it is you wish to have programmed. The layout should take into account we only have an 8.5 x 11 paper and also descriptions of any formulas or special calculations needed to produce the report.

Please fill out the information below completely any submission with information missing may be disregarded. Please attach any supported documents to your submission.
